

SUMÁRIO/CONTENTS

Mensagem de Boas-Vindas	3
Comissão Científica e Comissão Organizadora do Congresso	4
Programa Científico	5

COMUNICAÇÕES ORAIS

• CO009 - Safety and effectiveness of biologic Disease-Modifying Antirheumatic Drugs in elderly patients with rheumatoid arthritis	20
• CO028 - Rituximab in connective tissue disease – associated interstitial lung disease	22
• CO034 - Atherosclerosis and bone loss in humans – Results from deceased donors and patients submitted to carotid endarterectomy	23
• CO044 - Is there an association between metabolic syndrome and severity of hand osteoarthritis? Results from a nationwide study	24
• CO047 - TNF inhibitors reduce spinal radiographic progression in axial spondyloarthritis (partially) by decreasing disease activity	25
• CO049 - Association between bone marrow edema and structural progression in the same quadrant in axial Spondyloarthritis – 5-year data from the DESIR Cohort	26
• CO071 - A phase 3, randomized controlled trial comparing Upadacitinib monotherapy to MTX monotherapy in MTX-naïve patients with active rheumatoid arthritis	27
• CO073 - Economic impact of healthcare resource utilization and work disability in Portuguese patients with ankylosing spondylitis: results from the Assessment of REsults in Ankylosing spondylitis (AREA) study	28
• CO081 - Children with extended oligoarticular and polyarticular juvenile idiopathic arthritis have a cytokine pattern favouring B cell activation in circulation similarly to early and established rheumatoid arthritis patients	29
• CO107 - Evaluation of Patient Reported Outcome Measures in association with Ankylosing Spondylitis response to TNFi: Preliminary results from the BioefficacySpA clinical trial	30
• CO147 - SLE Disease Activity Score (SLE-DAS): a new SLE continuous score with high sensitivity for changes in disease activity and that enables an accurate definition of SLE remission.	31
• CO154 - Body mass index and disease activity in Portuguese and Brazilian Juvenile Idiopathic Arthritis patients: results from Rheumatic Diseases Portuguese Register	32
• CO156 - Gender differences in psoriatic arthritis – impact on tumor necrosis factor inhibitors persistence and response	33
• CO192 - Remission persistence in rheumatoid arthritis, psoriatic arthritis and axial spondyloarthritis under biologic treatment	35
• CO193 - Construct and discriminant validity of the European Portuguese version of the Start Back Screening Tool (SBT-PT)	37
• CO216 - Clinical associations and diagnostic potential of regulatory-like B-cells in Sjogrens syndrome	37
• CO217 - Assessing the quality of biologic switch decisions in psoriatic arthritis: development and validation of outcomes measurement tools	38

SUMÁRIO/CONTENTS

MESAS SPR

Mesa 1 - Novidades em imagiologia	42
• Ecografia musculoesquelética – como pode ajudar o clínico no diagnóstico e monitorização das doenças reumáticas inflamatórias? Fernando Saraiva	42
• Valor clínico dos estudos FDG-PET/CT em reumatologia Ana Isabel Santos	42
Mesa 2 - Reapreciar a Fibromialgia – a Doença e o Doente	42
• Diagnóstico preciso e subtipos da doença Augusto Faustino	43
• Dá para entender a Fibromialgia? José António Pereira da Silva	43
Mesa 3 - Doenças reumáticas sistémicas: interface com a neurologia	43
• Doenças reumáticas sistémicas e envolvimento do sistema nervoso central Filipe Palavra	43
• Doenças reumáticas sistémicas e envolvimento do sistema nervoso periférico Luís Santos	44
Mesa 4 - Desafios das doenças reumáticas de início juvenil na infância e na idade adulta	44
• From Childhood to Adult Medical care: Making the right transition Janet E McDonagh	44
• Pedidos de apoio para crianças com suspeita de doença reumática – como gerir e cuidados a ter Maria José Santos	45
Mesa 5 - Geronto-reumatologia	45
• Polymyalgia rheumatica and giant cell arteritis Cristina Ponte	45
• Sarcopenia em associação com o envelhecimento e com patologia reumática Carlos Vaz	45
Mesa 6 - Novos desafios de diagnóstico e tratamento	46
• Immune-related adverse events from cancer immunotherapy: what the rheumatologist should know Filipe Araújo	46
• Tertúlia na doença de IgG4: Reumatologia e Hematologia Clínica Margarida Badiar, Patrícia Pinto	46

POSTERS

• P001 – Utilização de certolizumab em dose de carga em doentes com patologia reumática inflamatória: a experiência de um centro	50
• P003 - A mão na artrite reumatóide: deformidades e função	51
• P004 - Assessment of the vaccination status in rheumatic disease patients with immunosuppressive therapies	52
• P006 - Impact of block switch to biosimilar etanercept in practice – an experience from one tertiary rheumatology department	52
• P008 - Ultrasound inter-reader reliability of inflammatory findings in patients with polyarthritis	53

SUMÁRIO/CONTENTS

• P011 - Neutrophil-, monocyte-, eosinophil- and basophil-lymphocyte ratios: associations with traditional inflammatory markers and disease activity measures at baseline and 6 months after a bDMARD among biologic-naïve Rheumatoid Arthritis patients.	54
• P016 - Manifestações reumáticas associadas a imunoterapia - a experiência de um centro	55
• P018 - Neurologic involvement in antineutrophil cytoplasmic antibody (ANCA)-associated vasculitis –experience from a portuguese center	56
• P022 - Monocyte-lymphocyte ratio and platelet-lymphocyte ratio: role as biomarkers of disease activity in psoriatic arthritis patients	57
• P023 - Time-course change of neutrophil-lymphocyte ratio, monocyte-lymphocyte ratio and platelet-lymphocyte ratio in psoriatic arthritis patients and response to biologic therapy	58
• P024 - Eventos cardiovasculares nos doentes com gota tratados com febuxostate	59
• P025 - Principais indicações e eficácia do febuxostate nos doentes com artropatia gotosa – experiência de um centro hospitalar	60
• P026 - The role of neutrophils to lymphocyte ratio (NLR), monocyte to lymphocyte ratio (MLR), platelet to lymphocyte ratio (PLR), eosinophil to lymphocytes ratio (ELR) and basophile to lymphocyte ratio (BLR) in assessing disease activity in Spondyloarthritis	61
• P027 - The lung in Sjögren's syndrome patients – an overview of clinical characteristics and disease outcome	62
• P029 - Rituximab no tratamento da Doença Pulmonar Intersticial associada à Artrite Reumatóide.	63
• P036 - Serum sphingolipids as candidate biomarkers in Rheumatoid Arthritis	
• P045 - What is Axial Spondyloarthritis? A latent class and transition analysis in the SPACE and DESIR cohorts	64
• P046 - Higher disease activity is associated with more spinal radiographic progression in patients with axial spondyloarthritis	65
• P048 - Increasing impact on Structural Damage with Increasing Cumulative Inflammation at the SI-Joint Quadrant Level in axial Spondyloarthritis – 5-year Data from the DESIR Cohort	67
• P053 - Effect of RF and ACPA negativation in clinical response in RA patients under biologic therapy	68
• P054 - The role of ACPA and RF in the monitoring of patients with RA: a center perspective	
• P055 - Knowledge and perceptions of Portuguese family physicians towards ankylosing spondylitis: results from the Assessment of REsults in Ankylosing spondylitis (AREA) study.	69
• P056 - Treatment options in lupus myocarditis – a systematic review	70
• P057 - Is botulinum toxin useful in systemic sclerosis related vasculopathy? A systematic review	71
• P059 - Prevalência de baixa densidade mineral óssea e fraturas de fragilidade em doentes com vasculite associada a ANCA: um estudo transversal	72
• P062 - Clinical characteristics and treatment in a cohort of sjögren's syndrome patients	73
• P067 - Cardiovascular risk factors and Framingham risk score in primary Sjögren s syndrome patients: a comparative study with matched controls.	74
• P070 - Questionário em torno da prática de ecografia musculoesquelética (eme) na reumatologia portuguesa	75
• P072 - Long-term association between disease activity measured by ASDAS and physical function in a large early axial spondyloarthritis cohort	76

SUMÁRIO/CONTENTS

• P074 - Pregnancy in SLE patients: results from a portuguese cohort	77
• P075 - Efficacy and Safety Outcomes in Patients with Axial Spondyloarthritis Treated with Certolizumab Pegol: Results from the 48-Week Run-In Part of a 96-Week Study (NCT02505542)	78
• P076 - The Prevalence and Treatment Patterns of Women of Childbearing Age with Rheumatic Diseases	79
• P078 - Como são detectados os nossos autoanticorpos?	80
• P079 - Tratamento da Artrite Psoriática com Fármacos Biotecnológicos: o que mudou em 16 anos de terapêutica	81
• P080 - Síndrome do Túnel Cárpico: Revisão de 5 Anos de Tratamento	82
• P084 - Antinuclear antibodies in primary care setting: is it worth it?	82
• P088 - The level of agreement between clinical examination and ultrasonography in early arthritis	83
• P090 - Salivary gland ultrasound findings are associated with clinical and serologic features in primary Sjögren's syndrome patients.	84
• P096 - Patients beliefs about medicines prescribed for their rheumatoid arthritis or spondyloarthritis	85
• P097 - Assessment of patients knowledge about biologic therapy as a self-completion questionnaire. Is it a good way to do it?	86
• P099 - Features of patients with rheumatic diseases admitted in a Rheumatic Inpatient Unit: 8 year experience	87
• P100 - Interstitial pneumonia with autoimmune features: a single center experience and the importance of a multidisciplinary approach	89
• P101 - Short-term outcomes in Low Back Pain patients treated in primary health care in Portugal	90
• P104 - Anti-Ro/SSA and anti-La/SSB positive pregnant women - Experience from a tertiary centre	90
• P105 - Prognostic factors associated with an early response to physiotherapy treatment in patients with chronic nonspecific neck pain: an exploratory prognostic model	91
• P108 - Anti-CCP positivo, sem AR - a que poderá corresponder?	92
• P112 - Effectiveness and safety of febuxostat: experience from a tertiary portuguese center	93
• P113 - Are circulating blood biomarkers for inflammatory rheumatic diseases gender-dependent? Systematic review based on Omics Data	94
• P116 - Gait 3D kinematics unveils a specific pattern in patients in early years of axial spondyloarthritis independent of their body composition and muscle performance variables.	94
• P118 - The Bioefficacy SpA protocol: Biomarkers of tumor necrosis factor inhibitors efficacy in Ankylosing Spondylitis patients using a transcriptome analysis and mass spectrometry.	95
• P119 - Rheumatology role in hospitalized patients' management in a tertiary hospital	96
• P120 - GO-DACT: a randomized double-blind placebo-controlled proof-of-concept trial of golimumab plus methotrexate (MTX) versus MTX monotherapy, in improving dactylitis, in MTX naïve psoriatic arthritis patients	97
• P121 - Axial spondyloarthritis induces muscle dysfunction, the role of body composition parameters: MyoSpA study	98
• P123 - Probing the role of lncRNAs in the control of osteoclastogenesis in rheumatoid arthritis patients	99
• P125 - Discordance Between Patient,s and Physician,s Global Assessment in Rheumatoid Arthritis	100

SUMÁRIO/CONTENTS

• P126 - Outcome of transition of care in young adults with juvenile onset chronic rheumatic diseases	101
• P127 - Demyelinating diseases in rheumatic patients treated with tumor necrosis factor inhibitors	102
• P131 - Doença Óssea de Paget – análise descritiva da população de um Serviço de Reumatologia	103
• P133 - DAS 28 3V and DAS 28 4V: the role of subjective and objective variables	104
• P137 - Pregnancy outcomes in antiphospholipid syndrome: 8 year-experience from a multidisciplinary unit	105
• P140 - Established rheumatoid arthritis patients have reduced frequencies of follicular CD8+CXCR5+ T cells in peripheral blood	106
• P141 - Paget's disease-experience of a tertiary center	106
• P148 - Is Internet an important source of information for rheumatic patients?	107
• P149 - Remission and low disease activity matrix tools: results in real-world Rheumatoid Arthritis patients under anti-TNF α therapy	107
• P150 - Muscle strength compromise in young Axial Spondyloarthritis patients: preliminary results from MYOSPA study	109
• P151 - Impact of PGA in RA patients medicated with csDMARDs and bDMARDs	110
• P175 - Self-reported impact of axial spondyloarthritis on work	111
• P187 - Assessment of digits' circumference in the Portuguese population to calculate the Leeds Dactylitis Index	112
• P190 - Consulta multidisciplinar de Patologia do Interstício Pulmonar - casuística	113
• P191 - Interdisciplinary stratified care for low back pain – A qualitative study of general practitioners' and physiotherapists' perceptions regarding its upcoming implementation in Portugal	114
• P195 - Predictive validity of the START BACK Screening Tool (SBT) to identify patients at risk of developing persisting disabling low back pain	114
• P204 - Two-Year Efficacy and Safety of Ixekizumab in Psoriatic Arthritis Patients	115
• P206 - Rapid and Sustained Improvements in Patient-Reported Outcomes with Ixekizumab in Biologic-Naïve and TNF-Inadequate Responder Patients with Psoriatic Arthritis	116
• P210 - Epstein-Barr Virus serological profile affects circulating lymphocytes in Sjögrens Syndrome	117
• P211 - Persistence with biologic therapy and causes of suspension among patients with psoriatic arthritis	118
• P214 - Helper and cytotoxic follicular T-cells in Sjögrens syndrome	118
• P215 - Valor acrescentado das subpopulações linfocitárias na classificação da Síndrome de Sjogren	119
• P218 - Skin outcomes in limited systemic sclerosis: data of tertiary center	120
• P219 - The role of anxiety and depression symptoms on the outcomes of chronic low back pain multidisciplinary treatment – a prospective multicenter cohort study	121

CASOS CLÍNICOS

• CC010 - Vasculite Reumatóide - ainda uma realidade	124
• CC012 - Esclerose sistémica associada a Sarcoidose com Pseudoclubbing digital: um caso raro	125
• CC0013 - Uso off-label do Rituximab num caso de pseudotumor da órbita em contexto de doença relacionada à IgG4	126

SUMÁRIO/CONTENTS

• CC014 - Lúpus Eritematoso Sistémico em doente transplantado hepático por Polineuropatia Amiloidótica Familiar	127
• CC015 - Mielite transversa longitudinalmente extensa num doente com Lupus Eritematoso Sistémico: um caso de doença do espectro da Neuromielite Óptica	127
• CC017 - Rheumatoid arthritis disease activity worsening after breast implants: clinical case and review	128
• CC031 - Envolvimento cardíaco na Esclerose Sistémica: a propósito de um caso clínico	130
• CC032 - Tuberculose em doentes tratados com antagonistas do TNF alfa – preocupação e desafio permanentes	130
• CC035 - Infecção Osteoarticular	132
• CC042 - Diagnósticos diferenciais de poliartrite em doente com Doença de Crohn sob Infliximab: um caso invulgar	132
• CC050 - Doença desmielinizante em doentes reumáticos tratados com inibidores do TNF alfa: dois casos de nevrite ótica	133
• CC051 - Síndrome de SAPHO complicado por Amiloidose AA	134
• CC052 - Atypical Kawasaki Disease Shock Syndrome case report: not all shocks are septic or toxic	135
• CC058 - Paquimeningite em doente com Artrite Reumatóide – um caso de envolvimento do Sistema Nervoso Central pela doença?	136
• CC063 - “Striatal Hands” Mimicking Rheumatoid Arthritis	137
• CC064 - Dermatomyositis and Hear loss: Two manifestations of one disease?	137
• CC066 - IgG4-related disease mimicking anti-neutrophil cytoplasmic antibody-associated vasculitis(AAV): a diagnostic challenge	138
• CC068 - McArdle’s disease: diagnostic approach after clinical symptoms of vigorous exercise intolerance in a snowboarder in Alpes	139
• CC077 - Artrite da sínfise púbica	140
• CC083 - Gout: a near-death experience	140
• CC086 - Diagnóstico etiológico de Pericardite na Artrite Reumatóide – a propósito de um caso clínico	141
• CC089 - Retinite necrotizante aguda em doente com LES: um desafio diagnóstico	142
• CC092 - Diagnosis and classification difficulties when Sjögren syndrome coexists with Hepatitis C – a reported case and literature review.	143
• CC093 - Diferentes envolvimentos orgânicos da granulomatose com poliangeíte – relato de 3 casos	144
• CC094 - Trombose intracardiaca na Doença de Behçet	144
• CC095 - Manifestações intestinais em doente com espondilite anquilosante: quando as manifestações extra-articulares obrigam ao switch	145
• CC111 - Systemic inflammatory syndrome in a patient with systemic sclerosis - case report of underlying chronic Q fever	146
• CC114 - The value of tocilizumab in articular and cutaneous manifestations of Systemic Sclerosis: a case report	147
• CC115 - Septic polyarthritis by Streptococcus aureus of “unknown source”	148
• CC124 - Usefulness of tocilizumab in a patient with rheumatoid arthritis and primary biliary colangitis	149
• CC130 - Nevrite Ótica Recorrente e Mielite numa Doente com Lúpus Eritematoso Sistémico – A Propósito de um Caso Clínico	150

SUMÁRIO/CONTENTS

• CC136 - Artrite Reumatóide e Doença relacionada com IgG4 – uma associação causal ou casual?	150
• CC138 - Toxicidade Cutânea Associada à Hidroxicloroquina – Descrição de 7 Casos	151
• CC143 - Manifestações pulmonares da Doença de Still do Adulto	152
• CC144 - Poliartrite aguda febril: a propósito de um caso clínico	153
• CC146 - Acute Psychosis as The First Manifestation of Systemic Lupus Erythematosus	153
• CC152 - A thousand platelet – A case Report	154
• CC155 - Granulomatose com poliangéite e Arterite de células gigantes: uma associação incomum	155
• CC157 - Granulomatose com poliangéite “limitada” – relatos de dois casos clínicos	156
• CC160 - Síndrome dos anticorpos antifosfolipídicos catastrófica: um caso sob anticoagulação	156
• CC161 - Erasmus Syndrome: an example of a multidisciplinary approach by Rheumatology and Pneumology	157
• CC163 - Reactive Arthritis following treatment with Bacillus Calmette-Guèrin for bladder adenocarcinoma	158
• CC165 - Vértex em marfim como apresentação de um síndrome de SAPHO	159
• CC166 - Fractura de stress na Artrite Reumatóide	159
• CC168 - A flautista	160
• CC170 - Síndrome de sobreposição de Esclerose Sistémica e Artrite Reumatóide	160
• CC171 - Síndrome de ativação macrofágica: uma apresentação atípica	161
• CC172 - Arthritis after cat bite: an unusual manifestation of cat scratch disease	162
• CC173 - Terapêutica combinada com azatioprina e adalimumab durante a gestação e amamentação – um contributo para a desmistificação	163
• CC176 - Espondilite anquilosante, hidradenite supurativa, inflamação intestinal e osteoporose fraturária: a importância da história clínica e decisão multidisciplinar	163
• CC178 - Síndrome de overlap ou metamorfose diagnóstica?	164
• CC180 - Uncommon causes of median nerve compression in the distal forearm. Three cases reports and literature review	165
• CC181 - Poliartrite Paraneoplásica	166
• CC182 - Síndrome anti-sintetase anti-PL12 positivo: relato de um caso clínico	167
• CC183 - Passive transfer of hepatitis B surface antibodies from Intravenous Immunoglobulin	167
• CC185 - Espondilodiscite e Espondilite Anquilosante	168
• CC186 - Displasia Fibromuscular mimetizadora de vasculite em doente com Rhupus	169
• CC194 - Doença Linfoproliferativa em Doente com Artrite Reumatóide Sob Metotrexato	170
• CC197 - Controlo de INR difícil em doente sob varfarina e azatioprina – a propósito de um caso clínico	170
• CC203 - Síndrome de Caplan - um caso clínico	171
• CC205 - Lipoma arborescente - um caso raro de etiologia primária e bilateralidade	172
• CC207 - Infecção por vírus Chikungunya - casos "importados" de doença articular	172
• CC208 - Infliximab na concepção e gravidez: mais um contributo para o conhecimento da sua segurança	173
• CC209 - PRES – uma forma pouco frequente de Neurolúpus	173
• CC212 - Associação Rara de Esclerite e Arterite de Células Gigantes	174
